Press Release

MICROPLEX announces a new entrant to our family of *flash fusing*, continuous-form, production Laser Printers.

The SOLID F40 is a valued addition to the full line of flash fusing, Laser Printers, offered by MICROPLEX. The F40 provides mid-range production, laser quality output, at a price-point similar to Line Printer pricing!

Bedford, Ohio – April 4th, 2016: MICROPLEX announces the launch of the newest member to the family of continuous form, flash-fusing, Laser Printers, the SOLID F40. The SOLID F40 offers all of the technology features of the current SOLID F60HD, including the powered forms stacker for no additional charge, at a price-point that will be a pleasant surprise to Customers that have wanted to justify laser-quality print production!

“The SOLID F40 provides a nice fit, for speed and price-point, into our full line of mid-range, continuous form, flash fusing, Laser Printer products” states Mark Merhab, Vice President for MICROPLEX. The F40 provides the Print Customer, versatile print production, for many types of Media, due to the lower fusing temperatures of the flash fusing technology. With the addition of the F40, many Customers that require laser quality printed output, but did not have the budget to move away from Line Printers, can now fulfill this need” continues Mr. Merhab.

MICROPLEX Printware Corporation is a Bedford, Ohio, based printer manufacturer and is a leader in continuous form laser printers for mid-range production applications. MICROPLEX's products are available worldwide from very experienced channel partners, with MICROPLEX offices located in German and the USA.
