Press Release

MICROPLEX announces the LOGIJET TC4 and LOGIJET TC6, 4" and 6" wide two-color Thermal Transfer Printers capable of printing two color labels simultaneously. Perfect for on demand variable data or batch label printing, the LOGIJET TC4 and LOGIJET TC6 Thermal Transfer Printers can produce fully qualified GHS and BS5609 compliant two-color Chemical Labels when matched with certified TT Ribbons and Labels.

Bedford, Ohio – August 15th, 2016: MICROPLEX announces the launch of the LOGIJET TC4 and LOGIJET TC6 industrial grade two-color 4" and 6" wide Thermal Transfer Printers developed to produce GHS compliant Chemical Labels.

"The TC4 and TC6 are product additions to enhance our commitment in the two-color Thermal Transfer Printer market to meet industry demand" states Mark Merhab, VP of Sales for MICROPLEX Printware Corporation. MICROPLEX has partnered with industry leaders to provide a Total Solution approach to fulfill the need for two-color printed output in not only the GHS Chemical Label market but also other markets that require two-color output such as Manufacturing and Department of Transportation Safety Labels, Biomedical Specialty Labels and also improved food tracking for the Produce Traceability Initiative (PTI). "With the addition of the LOGIJET TC4 and TC6, MICROPLEX now provides a family of two-color Thermal Transfer Printers that offer our Customers the proper product fit for their required price-point, media type and monthly print production needs" continues Mr. Merhab.

MICROPLEX Printware Corporation is a Bedford, Ohio-based Printer Manufacturer and is a leader in developing niche-market printer products for mid-range production and industrial print applications. MICROPLEX's products are available worldwide, through experienced, industry leading Channel Partners and are supported by MICROPLEX offices located in Germany and the USA.
