

THERMAL PRINTERS

FOR PRODUCTION AND LOGISTICS

ONE
PRINTER
FOR
ALL
APPLICATIONS

logiJET T4-2

logiJET T6-2

logiJET T8-3

➤ **THERMAL LABEL PRINTER WITH HP**

LASER PRINTER EMULATION

More than 40 emulations incl. PCL5.

➤ **LEGACY SYSTEM CONNECTIVITY**

i.e. QMS Magnum Code V, Printronix IGP PGL/ VGL

➤ **PROPRIETARY LANGUAGE CONNECTIVITY**

i.e. Zebra ZPL, Datamax, Printronix IGP PGL, TEC, IPDS

MICROPLEX PRINTWARE CORPORATION

Phone: 440-374-2424 E-Mail: info@microplex-usa.com

Fax: 440-374-2422

- Save money with Microplex plug-and-print solutions.
- One printer range for print widths from 4 inch up to 8-inch, in both B&W and 2-Color printers (8 inch GHS/BS5609 compliant).
- Printing of mixed data stream made easy (i.e. IGP and PCL5 can print on the same printer)
- Perfect for mobile solutions because of low power consumption and low voltage power supply (12 V, 24 V, 36 V, 48 V).
- Replace any older printer you have with Microplex thermal printers. They support more than 40 different printer languages (emulations).

SmartPrint Feature, Simultaneous Emulation Management (SEM) concurrent multiple printer emulations allowing replacement of your legacy printer using a proprietary DataStream. **SmartPrint** provides concurrent industry standard HP PCL5e emulation with auto selection between printer emulations, just send the print job and the logiJET printer will do the rest.

Microplex supports your legacy / proprietary print DataStream while providing the path to the future industry standard HP PCL5e for the next system update.

Thermal Printer Emulations

ZPL II, EPL2, IGP/PGL, Datamax DPL/FPL, TEC, IER-Command, Intermec Direct Protocol, LDC, Labelpoint, Etimark MP-1220, cab

Laser Printer Emulations

PCL5, IGP/PGL, XES, Kyocera Prescribe, Kodescript+ AGFA Reno, LN03+, BULL-MP6090

Matrix Printer Emulations

IGP/VGL, Epson FX-80, Ansi Genicom, CODE-V, MT-600, IBM Proprinter, IPDS

Other Emulations

PDF, CUPS-Raster, HPGL, TIFF, Diablo 630 Lineprinter ...
